

## NEVA 2019 Conference Draft Business Programme

as at June 04, 2019

### September 16, 2019 («zero day»)

Time and venue  
TBA

**III International Conference «Development of icebreaking and service fleet»**  
Organizer: PortNews Media Group

The Conference is meant to be a practical platform for discussions between shipbuilders, customers and contractors related to the fleet of icebreakers, tugboats and vessels providing bunkering and environmental services.

The largest operators of towing/bunkering/search-and-rescue/icebreaking fleet, Russian and foreign shipbuilders, designers, shipping and stevedoring companies, state regulators are invited to participate.

**Event suggests participation fee and available by prior registration**

Details: <http://en.portnews.ru/events/1032/>

---

### September 17, 2019

12:00 – 14.00

**Plenary session «International Cooperation in Shipbuilding. Focus on Russia»**

Hall H  
Conference-hall  
№4

Details TBA

**Event suggests no participation fee and available without prior registration**

---

15:00 – 17.30

**Panel discussion «Development of sea and inland waterways cruise shipping»**

Hall H  
Conference-hall  
№4

Co-organizers: Federal State Educational Institution of Higher Education «Admiral Makarov State University of Maritime and Inland Shipping», Russian Chamber of Shipping

Panel discussion is about development of cruise tourism in Russian Federation, the solution issues of modernization the cruise vessels, infrastructure development, making programs and routes in the regions of Russia.

Questions to discuss:

- Development of the cruising shipping in Russia: challenges and growth points
- Moscow and St. Petersburg - the most important cruise clusters of Russia
- Cruises by rivers as unique product of touristic market
- New cruise programs and routes
- New projects of expedition cruise vessels
- Capacities of the domestic shipbuilding industry for cruising vessel replacement
- Conception of the development of joint international cruising shipping
- Personnel training for the development of passenger water transport

Invited speakers:

- Isaeva Anna, The Russian chamber of shipping, Director of shipping
  - Tsvetkov Yury, Deputy Minister of Transport of the Russian Federation - head of the Federal agency for maritime and river transport
  - Klyavin Alexey, President of Russian Chamber of Shipping
  - Galkin Sergey, The Economy Ministry of Russia, Deputy Minister
  - Doguzova Zarina, Head of Federal Agency for Tourism,
  - Pankevich Evgeny, Chairman of the St.-Petersburg Committee of Tourism Development
  - Pronicheva Ekaterina, Chairman of the Committee on Tourism of the city of Moscow
-

- Anisimov Konstantin, Vice Rector Russian University of Transport (MIIT)»
- Pekka Koskinen, Deputy Chairman of the Board of Finish Waterway Association, Brave Logistics Co.Ltd. (Finland)
- Egorov Gennady, General Director of «Marine Engineering Bureau» Co. Ltd

**Event suggests no participation fee and available without prior registration**

**Contact person:** Zhidkova Anastasiia, Admiral Makarov SUMIS, specialist of research, Russian Federation, +7 921 422-88 -29, [zhidkovaam@gumrf.ru](mailto:zhidkovaam@gumrf.ru)

15:00 – 18.00

Hall H  
Conference-hall  
№9

**Session «Composite and additive materials in shipbuilding»**

Co-organizer: CRISM «Prometey»

Details TBA

**Event suggests no participation fee and available without prior registration**

**Contact person:** Pylaev Alexander, CRISM «Prometey», Leading Specialist in Public Relations, Russia +7 952 399 7007 [oknir@crism.ru](mailto:oknir@crism.ru)

## September 18, 2019

10.00 – 18.00

Hall H  
Conference-hall  
№9

*Special project*

**Suppliers' Day**

Co-organizer: Center for Entrepreneurship Development and Support

Details TBA

**Event suggests no participation fee and available by prior registration**

10.00 – 14.30

Hall TBA

*Conference «Russian shipbuilding and ship repair center – 80 years on the front line of advanced technologies»*

**Plenary meeting «Russian Shipbuilding and Shiprepair Technology Center – 80 years on the front line of advanced technologies»**

Organizer: Shipbuilding & Shiprepair Technology Center

The JSC SSTC's achievements as the leading company in Russian shipbuilding industry on technology and design of shipyards and construction of vessels of any kind and purpose will be discussed at the conference. SSTC's future plans are related to one of the main Russian agendas – development of technologies and equipment for exploring sea shelf and transportation of hydrocarbons by Northern Sea Route.

Questions to discuss:

- Design, modernization and re-equipment of shipbuilding and ship repair yards, dockyards and marine engineering companies;
- Automation of technological and organizational preproduction for shipyard and dockyard;
- Development of ship construction procedures using large assembly units;
- Design and construction of fishing, geological exploration and research vessels, etc.

Invited speakers:

- Oleg N. Ryazantsev, Deputy Minister of Ministry of Industry and Trade of the Russian Federation, Russia
- Vladimir Y. Pospelov, Member of board of Military-Industrial Commission of the Russian Federation, Russia
- Aleksei L. Rakhmanov, President of JSC “United Shipbuilding Corporation”, Russia
- Yury Y. Kalabin, Chief of Committee on industrial policy and innovations, Government of Saint Petersburg, Russia
- Konstantin G. Palnikov, Director General of Russian Maritime Registry of Shipping, Russia
- Mikhail V. Aleksandrov, Director General, JSC SSTC, Russia
- Aleksei V. Kadilov, Director General, Baltic shipyard, Russia
- Gleb A. Turichin, President of SMTU, Russia
- Yury M. Gabdrafikov, Deputy Director General on R&D activities, JSC SSTC, Russia
- Valeriy N. Kireyev, Deputy Director General – Director of DC “Soyuzproyektverf”, Russia
- Vladimir V. Lisitsky, Director of RTC “Sudotechnologiya”, JSC SSTC, Russia & others

**Event is available by Organizer's invitation only**

**Contact person:** Marina V. Bocharnikova, chief specialist on promotion, JSC SSTC, Russia, +7-812-786-05-22, [info@sstc.spb.ru](mailto:info@sstc.spb.ru)

12.00 – 14.30

Hall H  
Conference-hall  
№8

**Damen's Workshop «Turnkey Contracts for Construction and Financing»**

Organizers: PortNews Media Group, Damen

Features of the unique integrated offer of the international shipbuilding group of Damen for the design, construction and financing of ships, as well as subsequent maintenance in any country of the world.

Questions to discuss:

- How to optimize the cost of building a new vessel?
- How to attract funding for the shipbuilding project?
- How to choose between credit and leasing?
- Warranty and post-warranty maintenance of the vessel.

Invited speakers:

- Nadezhda Malysheva, PortNews Media Group Development Director
- Damen representatives
- Customers

**Event suggests no participation fee and available by prior registration**

**Contact person:** Nadezhda Malysheva, PortNews Media Group Development Director, Russia, St. Petersburg, +7 905 260 30 05 [mn@portnews.ru](mailto:mn@portnews.ru)

14.00 – 18.00

Hall H  
Conference-hall  
№7

**Conference «Innovative technologies and equipment for shipbuilding and ship repair»**

Organizers: Information and analytical agency «Maritime news of Russia», magazine «Maritime fleet»

The purpose of the event is to provide market participants with information on the latest domestic and foreign technologies, developments and equipment, to create a platform for the exchange of experience, establishing and strengthening business contacts, intra-and inter-sectoral cooperation.

Questions to discuss:

- high technology equipment
- industrial equipment
- lifting and moving technologies (lifting and transport equipment)

**Event suggests participation fee and available by prior registration**

**Contact person:** Marina Titova, Maritime news of Russia, Development Director, +7(916) 659-52-46, [marina.titova@morvesti.ru](mailto:marina.titova@morvesti.ru)

## September 19, 2019

10.00 – 17.00

Hall H  
Conference-hall  
№9

*Special project*

**Conference «Development of small and light shipbuilding in Russia»**

Details TBA

**Contact person:** Anastasia Kobzeva, Head of "Small Shipbuilding", Mob. RF: +7 905 217 81 18, Mob. EU: +49 152 068 577 12, EML: [a.kobzeva@nevainter.com](mailto:a.kobzeva@nevainter.com)

10.00 – 18.00

Hall H  
Conference-hall  
№7

**VII conference «Technic and technologies for Ports: effective investments»**

Organizers: Information and analytical agency «Maritime news of Russia», magazine «Sea Ports»

The conference is the only one of its kind annual meeting of professionals, where new developments of port equipment and innovative technologies of cargo handling in ports are presented. Manufacturers, suppliers and consumers of port equipment discuss ways to improve the competitiveness and efficiency of stevedoring companies, increase the speed and quality of cargo handling, reduce the cost of transshipment.

Questions to discuss:

- Management of technical competitiveness indicators of the port

- New port equipment and methods of its operation
- Innovations in loading and unloading operations
- Equipment for maintenance and repair of equipment
- Import substitution in the port handling equipment. Work with Russian manufacturers.
- Solving environmental problems in port activities

**Event suggests participation fee and available by prior registration**

**Contact person:** Marina Titova, Maritime news of Russia, Development Director, +7(916) 659-52-46, [marina.titova@morvesti.ru](mailto:marina.titova@morvesti.ru)

10.00 – 14.30

Hall TBA

*Conference «Russian shipbuilding and ship repair center – 80 years on the front line of advanced technologies»*

**Technical session «Engineering support of ship design, construction and repair»**

Organizer: Shipbuilding & Shiprepair Technology Center

Discussion of goals and key issues related to development of advanced technologies and special technological equipment for shipbuilding industry. Automation of technological and organizational preproduction, mechanization and robotization of hull plating, welding and assembly and berth facilities, application of laser and additive technologies in shipbuilding and ship repair, development of technologies and special-purposed equipment for civil marine engineering aimed to explore offshore fields

Questions to discuss:

- Development of advanced technologies, production of import-replacing technological equipment for shipbuilding and ship repair;
- Laser and additive technologies in shipbuilding industry and marine engineering;
- Engineering support for establishment of “digital shipyards” in Russia;
- Installation process of shipboard equipment and large assembly units during ship construction, etc.

Invited speakers:

- Valeriy M. Levshakov, PhD in Technical Science, Deputy Director on Science of RTC “Sudotechnologiya”, JSC SSTC, Russia
- Alexander Y. Gervard, Chief specialist on ship repair and maintenance, JSC “CDB MT “Rubin”, Russia
- Pavel L. Lyamin, Head of Department, RTC “Sudotechnologiya”, JSC SSTC, Russia
- Aleksei A. Vasilyev, Head of laboratory, RTC “Sudotechnologiya”, JSC SSTC, Russia and others.

**Event suggests no participation fee and available by prior registration**

**Contact person:** Marina V. Bocharnikova, chief specialist on promotion, JSC SSTC, Russia, +7-812-786-05-22, [info@sstc.spb.ru](mailto:info@sstc.spb.ru)

10.00 – 14.00

Hall TBA

*Conference «Russian shipbuilding and ship repair center – 80 years on the front line of advanced technologies»*

**Technical session «Modernization and retooling of shipbuilding companies»**

Organizer: Shipbuilding & Shiprepair Technology Center

Discussing goals and key issues of modernization, reconstruction and re-equipment of shipbuilding enterprises by means of mechanization and automation of production processes, application of innovative design and technological solutions ensuring construction of production sites, shops, berths and launching facilities, complete shipyards, etc. with high technical and economic performance matching Russian and world standards.

Questions to discuss:

- General trends of production facilities reconstruction at JSC PA “Sevmash”;
- Technical re- equipment and reconstruction of special-purpose production complex at JSC “Admiralty Shipyards”;
- General design-process solutions on production of reinforced concrete components of marine equipment designed for exploration and development of sea shelf and Northern Sea Route;
- Reconstruction of two-chamber dry dock at dockyard in the city of Murmansk;
- Environmental issues arising upon shipyard construction and modernization, etc.

Invited speakers:

- Sergey M. Lyashenko, Director of Technical Development Department, JSC United Shipbuilding Corporation, Russia
- Dmitry A. Guzhev, Head of Capital Construction Department, JSC Admiralty Shipyards, Russia
- Georgy R. Neiman, Chief engineer of “Nerpa” dockyard, JSC SC “Zvyozdochka”, Russia
- Valeriy N. Kireyev, Deputy Director General – Director of DC “Soyuzproyekver”, JSC SSTC, Russia
- Dmitry A. Tsubulsky, Chief project engineer, JSC SSTC, Russia

- Vladimir G. Smirnov, Head of section on cost estimate, economics and construction management, JSC SSTC, Russia
- Konstantin A. Malevanov, Head of section on hydraulic and engineering surveys, JSC SSTC, Russia and others

**Event suggests no participation fee and available by prior registration**

**Contact person:** Marina V. Bocharnikova, chief specialist on promotion, JSC SSTC, Russia, +7-812-786-05-22, [info@sstc.spb.ru](mailto:info@sstc.spb.ru)

14.30 – 18.00

Hall TBA

*Conference «Russian shipbuilding and ship repair center – 80 years on the front line of advanced technologies»*

**Technical session «Issues of labor norms, labor intensity and price formation in shipbuilding industry»**

Organizer: Shipbuilding & Shiprepair Technology Center

Discussing goals and key issues related to labour norming and pricing in shipbuilding and ship repair industry, advancement of normative and regulatory-procedural base for pricing of state-ordered ship construction and repair, analyzing experience of shipbuilding companies in labour norming.

Questions to discuss:

- Current state of labour norming in shipbuilding and ship repair industry;
- Development, approval and implementation of labour norms for ship construction and repair;
- Updating of regulatory-procedural documents on planning definition and consideration of labour intensity upon ship construction and repair;
- Examination of pricing and labour intensity calculation independently rendered by the companies upon ship design, construction or repair, etc.

Invited speakers:

- Alexander N. Vauchsky, Dr.Tech.Sc., Deputy Director of ISTC “Rumb”, JSC SSTC, Russia
- Viktor M. Charupa, Deputy Chief of Pricing Department, JSC PA “Sevmash”, Russia
- Georgy R. Neiman, Chief engineer of “Nerpa” dockyard, JSC SC “Zvyozdochka”, Russia
- Mikhail F. Onatsevich, Chief production engineer, JSC “Northern Shipyard”, Russia

**Event suggests no participation fee and available by prior registration**

**Contact person:** Marina V. Bocharnikova, chief specialist on promotion, JSC SSTC, Russia, +7-812-786-05-22, [info@sstc.spb.ru](mailto:info@sstc.spb.ru)

11.00 – 13.00

Hall TBA

**Conference for managers of ILS station of service network of JSC «UZEMIK»**

Organizers: UZEMIK, ISKOSH

Control and quality of the annual service NSS

Questions to discuss:

- Service
- Work AIS «WEB Certification»

Speaker:

Petrenko Evgeny Stanislavovich, JSC «UZEMIK», Chief of service department, Russian Federation

**Event is available by Organizer's invitation only**

**Contact person:** Petrenko Evgeny Stanislavovich, JSC «UZEMIK», Chief of service department, Russian Federation, +79177608460, [service@uzemik.ru](mailto:service@uzemik.ru)
